Number One

Overview of the Supermarket System and the Retail Store System 3
P. V. McEnroe, H. T. Huth, E. A. Moore, and W. W. Morris III

The characteristics and decodability of the Universal Product Code 16
D. Savir and G. J. Laurer

The role of the operator in the Supermarket and Retail Store Systems 35
D. C. Antonelli

Store performance studies for the Supermarket System 46
W. C. Metz, Jr. and D. Savir

Design and performance considerations for the Retail Store System 64
M. A. Berk, C. W. Dunbar, and G. C. Hobson

Reliability, availability, and serviceability design considerations for the Supermarket and Retail Store Systems 81
R. O. Hippert, L. R. Palounek, J. Provetero, and R. O. Skatrud

Number Two

A program generator 102
W. D. Hagamen, D. J. Linden, K. F. Mai, S. M. Newell, and J. C. Weber

Performance measurement tools for VM/370 134
P. H. Callaway

Elements of queuing theory for system design 161
A. O. Allen

Hierarchical approach to computer system integrity 188
J. J. Donovan and S. E. Madnick

Volume 14
1975

Number Three

An access control mechanism for computing resources 212
H. M. Gladney, E. L. Worley, and J. J. Myers

Generalized audit trail requirements and concepts for data base applications 229
L. A. Bjork, Jr.

Tuning a virtual storage system 246
H. A. Anderson, Jr., M. Reiser, and G. L. Galati

The Power Profile—An installation management tool 264
J. A. Laird

Computing center optimization by a pricing-priority policy 272
S. B. Ghanem

Productivity of computer-dependent workers 292
D. N. Streeter

Number Four

Computer installation accounting 314
H. M. Gladney, D. L. Johnson, and R. L. Stone

Evaluating system changes under uncontrolled workloads: a case study 340
H. P. Friedman and G. Waldbaum

Testing in a complex systems environment 353
M. O. Duke

Performance analysis of virtual memory time-sharing systems 366
Y. Bard

Structured programming for virtual storage systems 385
J. G. Rogers
